

THE PEPPER POTS

TRAIN TO YOUR LOVER

I Need To Hold Your Hand

When the sun goes down
(when the sun goes down)
I think about that night
in the country town
love came at first sight

You looked into my eyes
you saw'em bright, I knew that you'd be mine
(knew that you'd be mine)
my heart skipped a beat
finally I am complete
you're the one I need

Babe, I need to hold your hand
everything I want is you
I need to kiss your lips
I can't wait to see you

In my sweetest dreams (in my sweetest dreams)
see us together, you and me
it seems all so clear (it seems all so clear)
'cos I like you honey

You looked into my eyes
you saw'em bright, I knew that you'd be mine
(knew that you'd be mine)
I finally found you, no more tears,
no more loneliness,
you are all I've been looking for

Babe, I need to hold your hand
everything I want is you
I need to kiss your lips
I can't wait to see you

You looked into my eyes
you saw'em bright, I knew that you'd be mine
(knew that you'll be mine)
my heart skipped a beat
finally I am complete
you're the one I need

Babe, I need to hold your hand
everything I want is you
I need to kiss your lips
I can't wait to see you

Babe, I need to hold your hand
everything I want is you
I need to kiss your lips
I can't wait to see you
