

THE PEPPER POTS

TRAIN TO YOUR LOVER

You're The Best Song

I was walking by the road with a smile
with a sweet song in my head and in my heart
then I see your face, giving me your shiniest light
and suddenly begins to play that pretty song

All the words come together in my mouth
and the music flows wherever you do go
it's a new song created, (new song created)
it's the sound we have chosen (we have chosen)
A melody we propose and you're the reason you know that

Sweet music (sweet sweet music) soul music (soul soul music)
will make people dance around the world
you're the best song I've ever made (I've ever made)
you're the best man I've ever met

Chords and notes come to celebrate our love
and a great horn section join to play out loud
A brand new beat, we have found and it really works
come on drummer let me hear your groovy moves

I just want you to stay with me so long
and that we can sing that song forever more
it's a new song created (new song created)
it's the sound we have chosen (we have chosen)
A melody we propose and you're the reason you know that

Sweet music (sweet sweet music) soul music (soul soul music)
will make people dance around the world
you're the best song I've ever made (I've ever made)
you're the best man I've ever met
Sweet music (sweet sweet music) soul music (soul soul music)
will make people dance around the world
you're the best song I've ever made (I've ever made)
you're the best man I've ever met
